

THE UMBRELLA<sup>SM</sup>  
ARTS & ENVIRONMENT

## Musketaquid Earth Day April 24, 2021

Thank you for joining The Umbrella Arts & Environment program for a celebration of Air and our environment!

Before arriving at The Umbrella, it's important to **complete registration** and the health safety check through our **Artfest App** available through the Apple Store, Google Play, or [TheUmbrellaArts.org/Artfest](http://TheUmbrellaArts.org/Artfest).

Upon arrival, please check in with our Umbrella Volunteer at the entrance to the 40 Stow Street front lawn, closest to the parking lot. (Additional parking is available on Stow Street. Please note that this is a residential neighborhood, and be respectful of neighbors while street parking.)

After check-in, you'll be directed to a sectioned-off pod to enjoy the **Voices on the Air** performance and build your pod's Earth Float while social distancing.

Earth Day teacher **Abby Cramer** will lead you through how to build your Earth Float sculpture using apple tree fronds, grape vine, and more natural materials, as in the example pictured below.

After you complete your Earth Float sculpture and Voices on the Air finishes, exit The Umbrella front lawn **on the opposite side** from where you entered (side closest to Hunt Gym), and bring your Earth Float to the Boat Launch at 181 Lowell Road, Concord (@ 3 minute drive). Send your sculpture and wishes for the Earth down the Concord River with a special River Ceremony led by **CC King**. (If you made an Earth Float at home, you are welcome to launch them on your own or bring them to the Lowell Road Boat Launch at 1-4pm on Saturday.)

For questions, please email Caroline Provost at [caroline@theumbrellaarts.org](mailto:caroline@theumbrellaarts.org) or call 978-371-0820.

## Directions from The Umbrella Arts Center to Lowell Road Boat Ramp

1. Turn Left on Stow St towards Sudbury Rd
2. Turn Right on Sudbury Rd
