

Supplies for both Part 1 and Part 2

The instructor will provide each student with a basic wet-felting set-up along with several items from home to bring each week.

Students will be responsible for purchasing their own fiber. It is very important that you buy the right kind. We will be working exclusively with Merino Wool Roving, 19 - 23 microns. You will need a minimum of 12 colors. These colors should be ones that you like. It will be useful to have some light and some dark, some that go together well and some that are quite different from each other. Please purchase a minimum of 2 oz of each color. You will find links to trusted online vendors below. Please do not use Amazon as the quality is not assured.

What to bring from home each week:

- A clean container for soapy water (1 qt yogurt container or plastic paint bucket)
- A small bottle of baby shampoo or mild dish soap
- An old bath towel to cover work surface
- At least 2 hand towels for mopping up
- A woven cotton or linen dish towel
